

Printers That Pay

Reduced paper consumption

Epson's paper saving modes can reduce paper usage by more than 25%

Lower power usage

Epson's Energy Star printers consume, on average, 1/3 to 1/4 of the power compared to competitive models

TM-T88V Receipt Printer

Consumes about 1/3 of the power vs. competitive models
Industry leading 300mm/sec print speed
Highest reliability in it's class
16 levels of grayscale for exceptional graphics
Dual Interface

Paper Saving Modes
Uses 25% less paper

Energy Star Qualified
Uses up to 89% less power

TM-H6000IV Multifunction Printer

Consumes about 1/4 of the power vs. competitive models
Industry leading 300mm/sec thermal print speed
High MICR read accuracy 99.9%
16 levels of grayscale for exceptional graphics
Advanced quickpass check processing

EPSON Paper Reduction

How it works

- Margin Reduction
- Space Reduction
- Bar Code Reduction

Will not adversely effect print quality

Paper Reduction Settings	
Setting	Description
Extra Upper Space Reduction	Selects whether to reduce the upper margin or not. Enable this to cut out the extra upper margin that is created before the first print data is printed. Options = Enable / Disable
Extra Lower Space Reduction	Selects whether to reduce the lower margin or not. Enable this to cut out the lower margin that is created from the time the last line is printed until the paper is automatically cut. Options = Enable / Disable
Line Space Reduction Rate	Selects a reduction ratio of line spacing during printing. The minimum pitch is two dots. If reduction results in a line spacing of less than 2 dots, the line spacing will be reset to 2 dots. Options = 25% / 50% / 75%
Line Feed Reduction Rate	Selects a reduction ratio of line spacing of blank lines. Options = 25% / 50% / 75%
Barcode Height Reduction Rate	Selects a reduction ratio of barcode height. Options = 25% / 50% / 75%

Bold = Settings to deliver savings as shown.

Easy set up through the utility or directly through the printer

The screenshot shows the 'Paper Reduction Settings' window in the TM-T88V Utility. The settings are as follows:

- Extra Upper Space Reduction: **Enable**
- Extra Lower Space Reduction: **Enable**
- Line Space Reduction Rate: **75%**
- Line Feed Reduction Rate: **75%**
- Barcode Height Reduction Rate: **75%**

Two visual comparisons are shown: 'Normal' and 'Paper Reduction'. The 'Normal' view shows a label with 'ABCDEF' and a barcode. The 'Paper Reduction' view shows the same label but with significantly reduced margins and spacing, resulting in a more compact print. A 'Set' button is located at the bottom right of the settings area.

At the bottom of the utility window, the printer information is displayed: TM-T88V 30.12 ESC/POS, Port: USB-001, Alphanumeric Status: Online, and Serial No: MXAF000122.

- 4. Automatic Paper Reduction
 - 4.1. Upper Margin > Enable
 - 4.2. Lower Margin > Enable
 - 4.3. Blank Line Spacing > 75%
 - 4.4. Blank Space > 75%
 - 4.5. Barcode Height > 75%
